3 Dimensions to Co-Production ♦ Partnership ♦ Problems and Usages ♦ Burning Questions ♦ Metrics

CO-PRODUCTION

- I. 3 Dimensions to Co-Production
 - a. Co-production is about the social construction of leadership moving towards the utilization of all the knowledge and skills of a small group in order to operate using the five core values.
 - b. How do we go directly to the people and circumvent agencies?
 - c. How do we get them to help themselves/change their perception of us?
- II. Partnership, rather than dependency
 - a. With agency that gets government money
 - i. Specialized pockets of funding
- III. Medical
 - a. Health is not something you sell!
 - b. Clinical model
 - i. Increasing medical/social overlap
 - ii. Find an answer
 1. Challenge after care has been given: long term health
 - iii. Problems: asthma, colds, diabetes
- IV. Barriers
 - a. Changing an agency
 - b. Using the system and legal system
 - i. Ex. Racial disparities in foster care
- V. Problems
 - a. Love concept—why is it not widely received?
 - i. Stigma: disabilities
 - ii. Transformative movement—breaking the rules
 - iii. Unexpected—inconsistent with peoples' expectations
- VI. Burning questions
 - a. Does TimeBanks USA have a membership account for BCI checks? Central background check for all TimeBanks?
 - b. How do we not dilute the concept?
 - c. How do we promote it and keep the movement in motion?
- VII. Performance metric
 - a. Revolution/shift in values—it's not neutral
 - i. Service delivery or health
 - ii. Contributing events
